

Scan. Track. Manage multiple inventories.

Manage Inventory, Purchasing & Billing Across Multiple Facilities

Features

Through extensive research, development and a proven track record of current client measurable results - AdminiCare has successfully created an integrated on-line system that is specifically "tailored" to the Health Care Industry.

With AdminiCare, you can seamlessly track purchases while comparing them to your budget, efficiently manage multiple inventories, and access "real time" automated reporting.

Engineered to be scalable- AdminiCare eliminates the need for manual input, by automating: recurring transactions scheduling, optimizing of Par Level inventory controls, and cost of goods updates. AdminiCare is always there when you need it-available 24/7 and remember; there is no software to purchase, install, or maintain.

Benefits

Saying that navigating today's Health Care Environment is complicated-would be an understatement. Cost over-runs, staff burnout, regulations, and dotting I's and crossing T's-are just a sample of the challenges one faces- in the day to day effort to get "it right". AdminiCare was created to bring real solutions, through technology, that result in immediate cost savings and increased efficiencies. Through it's unique on line platform, AdminiCare will enable your staff to spend more time on your core competencies, as a result-improving your patient care and safety. AdminiCare's unique system automates: inventory management, procurement, and billing-significantly freeing up administrative time. AdminiCare is scalable across multiple facilities, is portable, very user-friendly and is assessable 24/7.

Residents

Improve Patient Care & Safety

Track Real-time Consumption

Link residents to usage
Real-time consumption tracking

Caregivers

Scanner Increases Staff Efficiency

No More Manual Counting

Scanner ends manual counting
